| Nailed / Screwed   | No                       |
| Floated            | Click System Only        |
| Underfloor Heating | Suitable With Conditions |

IMPORTANT INSTALLATION GUIDANCE

Installation is taken as acceptance of the goods and must be carried out by a competent installer to the relevant national standard, such as BS 8201. Inspect all goods before fitting.

Do not cover a newly installed floor with a non-breathable material for more than one week; trapped moisture can damage the surface, especially over underfloor heating.
