

PRODUCT DETAILS

|              |                               |
|--------------|-------------------------------|
| Product Code | HB1052                        |
| Construction | Engineered 2 Layer            |
| Specie       | European Oak                  |
| Type         | Herringbone                   |
| Dimensions   | 15 × 90 mm × Fixed            |
| Surface      | Brushed                       |
| Finish       | Natural Oil                   |
| Grade        | Character                     |
| Profile      | Tongue & Groove · Micro Bevel |

TECHNICAL CRITERIA

|                  |                |
|------------------|----------------|
| Certifications   | FSC, CE / UKCA |
| Hardness (Janka) | N/A            |
| Formaldehyde     | E1             |
| PCP              | PCP Free       |
| Thermal          | N/A            |
| Fire Rating      | Dfl-s1         |
| Slip Resistance  | N/A            |

GRADING: CHARACTER

A characterful grade rich in natural features — knots, colour variation, grain movement and filled checks are all part of its appeal. Sapwood is permitted. As a natural product, appearance varies markedly between planks.

INSTALLATION METHODS

|                    |                          |
|--------------------|--------------------------|
| Glue Down          | Required                 |
| Nailed / Screwed   | No                       |
| Floated            | No                       |
| Underfloor Heating | Suitable With Conditions |

IMPORTANT INSTALLATION GUIDANCE

Installation is taken as acceptance of the goods and must be carried out by a competent installer to the relevant national standard, such as BS 8201. Inspect all goods before fitting.

Do not cover a newly installed floor with a non-breathable material for more than one week; trapped moisture can damage the surface, especially over underfloor heating.
