Fire Rating	Dfl-s1
Slip Resistance	N/A

INSTALLATION METHODS

Glue Down	Recommended
Nailed / Screwed	Plank Only
Floated	Recommended
Underfloor Heating	Suitable With Conditions

GRADING: RUSTIC

A rustic grade celebrating the natural character of the timber, with abundant knots, colour variation and filled checks. Heartwood and sapwood appear along the edges. As a natural product, appearance varies from plank to plank and between batches.

IMPORTANT INSTALLATION GUIDANCE

Installation is taken as acceptance of the goods and must be carried out by a competent installer to the relevant national standard, such as BS 8201. Inspect all goods before fitting.

Do not cover a newly installed floor with a non-breathable material for more than one week; trapped moisture can damage the surface, especially over underfloor heating.
